

It is with Great Excitement and Pride that we make the following announcement of a new chapter at MD.

After having been in partnership for 28 years, Alexis and I realised that we needed to find a mechanism to provide for the entrance of new partners and ultimately provide a succession plan to ensure the successful continuity of MD. Earlier this year we were approached by and entered into extended discussions with Streets Chartered Accountants, a UK top 40 firm, which led us to the decision to merge with Streets on 1 January 2026. This merger provides us with a Succession Plan, the Opportunity to promote our Associates to Equity Partner Status and to leverage technological efficiencies and opportunities through a cutting-Edge International Firm.

We will continue much as we currently are but with added passion and new 'tools', maintaining our focus on Client Service and Professional Excellence.

Please see the official press release and announcement contained within this post.

We look forward to welcoming you to celebrate the commencement of our new partnership with us on 19 February 2026, the details of which will follow in the new year.

Alexis and I remain as Managing Partners and we look forward to continuing our partnership with you.

With Best Wishes

Alexis and Dave
