

MD Accountants & Auditors Joins Forces with Streets Chartered Accountants to Form MD Streets in Cape Town

On 1 January 2026, MD Accountants & Auditors will merge with Streets Chartered Accountants, a Top 40 UK accountancy and advisory firm. The newly combined practice will operate under the names of MD Streets Accountants and MD Streets Auditors.

This strategic merger marks a significant milestone for both firms, expanding Streets' international footprint with the addition of a Cape Town office. It reinforces Streets' commitment to delivering high-quality, client-focused services with enhanced reach and capability—particularly for its UK-based clients who benefit from extended support across time zones and a broader talent pool.

The merger aligns with Streets' ambitious brand evolution and long-term strategy. Following sustained growth and shifting client needs, the firm has unveiled a refreshed visual identity that reflects its position as a modern, multi-disciplinary partnership of trusted advisers. With over 35 offices across the UK and now internationally, Streets continues to serve ambitious clients while remaining deeply rooted in the communities it supports.

Alexis and Dave, Partners at MD Accountants & Auditors, commented:

“This merger is a natural fit—culturally and professionally. We founded MD Accountants & Auditors in 1997 with a vision to offer boutique, client-centred audit and advisory services. Joining Streets allows us to build on that legacy, offering our clients and staff greater continuity, deeper expertise, and access to specialist services.”

“Our team is equally energised by the opportunity to collaborate with a wider network of professionals, grow their careers locally and internationally, and contribute to a shared purpose that puts clients first.”

Paul Tutin, Chairman and Managing Partner of Streets, added:

“We're thrilled to welcome Alexis and Dave and the Associates and the entire MD team to Streets. Their client-first approach and ability to operate as an outsourced finance function align perfectly with our vision of people-led, technology-enhanced service delivery.”

“This merger strengthens our capacity to support UK clients with greater responsiveness and broader advisory services. The Cape Town office also enables us to extend our operational hours and tap into a vibrant professional community, enhancing service continuity and accelerating growth.”

“It's an exciting time for Streets as we continue to embed our new brand—one that reflects our values of independent ownership, people-focused service, and unwavering commitment to clients and communities.”

Streets is a leading UK firm of Chartered Accountants, tax specialists and business advisers. Known for our proactive and personable approach, we help our clients achieve clarity, confidence and success – today and into the future.
